

*Launch Grease*

# *Uniplex MAC Marine Grease*

**Environmentally  
Friendly EP Launch  
Grease**

Uniplex MAC Greases are Aluminum Complex based grease fortified with the purest petroleum oil available. It also has additives to provide the ultimate in water wash out resistance. Extreme pressure additives formulated with rust and oxidation inhibitors enables Uniplex MAC greases to provide superior water and oxidation resistance even in high temperatures. Uniplex MAC greases contain no heavy metals or lead resisting mechanical breakdowns while providing superior rust protection. Uniplex MAC Greases as formulated to be used in environmentally sensitive applications.

## **Features**

**Extreme Pressure Properties**

**Oxidation stance**

**Exceeds the U.S. EPA LC 55 test requirements for aquatic toxicity**

**Exceeds OCED 203 test requirements for aquatic toxicity**

**High Temperature Performance**

**Excellent Oxidation Stability**

**Superior Water Wash Out Resistance**

## **Physical Properties**

TEST	METHOD	EP 2
Soap Type		Aluminum Complex
Color	ASTM D-1500	Grey
Texture		Smooth
Penetration	ASTM D-217	265-295
Dropping Point	ASTM D-2265	500°F
Corrosion Test	ASTM D-1743	1,1,1
Oxidation Stability, Max (100 hr. psi drop)	ASTM D-942	5
Timken OK Load, Min	ASTM D-2509	50
Base oil viscosity SUS @ 210°F	ASTM D-445	85
SUS @ 100°F		1100

**(502) 363-5600**
